U.S. TO SEND NEW MINISTER TO CANADA

GERMANY'S ARMY DEMAND STIRS EUROPE CIRCLES

French Cabinet at Special Meeting Considers Demand Versailles Treaty Limitations Be Lifted For the Republic

British Watch Developments

Germany Reported to Want 300,000 Soldiers, Thirty-five War Material Factories and New Air Force

Canadian Press and Associated Press Dispatches

Paris, Sept. 1.—The French cabinet to-day discussed a new German demand that restrictions placed on the German army by the Versailles Treaty be lifted.

Premier Edouard Herriot, back from a visit to Jersey and, conferred with the British Charge d'Affaires before summoning his ministers.

The government was uncommunicative regarding details of the demand presented by the German Ambassador, but it was understood its principal points were these:

- Modification of the Versailles treaty with its provision for a twelve-year service basis in the German army.
- Amalgamation of compulsory military service and the period served by the militia.
- Sanction for a German army of 300,000 men.
- Permission for Germany to maintain heavy, light and coastal artillery.
- Permission for maintenance of tanks by the German army.
- Establishment of a complete German military aviation corps.
- Establishment of a school for military pilots.
- Extension of the German navy by the addition of airplane carriers, cruisers and submarines.
- Sanction for the construction of air bases along the German frontier.
- Creation of thirty-five war material factories in Germany.

Wheat Sixty-five Bushels to Acre

Canadian Press
Edmonton, Sept. 1.—To Gus Auch the Barrhill district, farming irrigated land, goes the palm for the best wheat yield reported in southern Alberta this season. His crop on eighteen-acre field averaged better than sixty-five bushels an acre.

Rain has again disrupted harvest operations. A partial resumption was reported yesterday, but rain fell in parts of southern Alberta this morning.

McGeough Martyred Editorial Asserts

ade Party Machine Victim for Criticism of B.C. Relief Fund Handling

asked Healthy Questions on Prices and Invoices, Says Daily Province

Vancouver, Sept. 1.—The case of Michael H. McGeough, federal relief officer, who caused a sensation before the Twigg committee of the Legislature in Victoria last session when in evidence he gave details of how government relief funds had been handled is the subject of comment by The Vancouver Daily Province.

Mr. McGeough, who was criticized by Chairman H. D. Twigg, M.P.P., of the committee for outspoken comments on the way relief funds had been handled requested the Lieutenant-Governor last week to investigate charges that \$1,000,000 of relief funds had been misappropriated by the government.

Following editorially with the reply of the Tolmie Government in Victoria it was not going to be bothered by any such charges and that Mr. McGeough was suffering from a "bad case," The Daily Province says: "We observe that the government is giving off the series of shameful lies made by one Michael H. McGeough regarding the administration of unemployment relief funds. We are" (Turn to Page 2, Col. 5)

CHINA SENDS HIM TO LONDON

With a session of the League of Nations Assembly set to open September 26 at Geneva, Dr. Quo Tai-chi has just arrived in London as Chinese Ambassador to Great Britain. He is expected to play a leading part if there are discussions of the Japanese-Chinese Manchurian situation.

RUSH MADE IN TAX PAYMENTS

City's Collections Near \$700,000 Mark on Last Day For Rebates

More than one-third of Victoria's taxes for the year had been collected up to yesterday and there was a rush to the treasury department this morning, the last date on which advantage can be taken of the rebate under the prepayment scheme.

For the next month tax accounts are due and payable in full and on October 2 the first penalty of 2 per cent for non-payment will go into effect.

Up to yesterday, total collections amounted to \$553,900, which is regarded as an unusually good showing.

The prepaid rebate to-day amounted to one-half of one per cent on the tax bills, interest being allowed at 6 per cent per annum until September 30.

WILL OPEN FAIR

Oshawa, Ont., Sept. 1 (Canadian Press)—At the invitation of an opponent in many political battles, Hon. G. Howard Ferguson, Canadian High Commissioner to Great Britain, will open the Oshawa fair September 13.

W. E. N. Sinclair, K.C., Liberal leader in the Ontario Legislature, extended the invitation in his capacity as president of the Ontario Agricultural Society and yesterday announced Mr. Ferguson's acceptance.

COMPANIES ADDING TO THEIR PAYROLLS

Canadian Press
Fort William, Ont., Sept. 1.—All railwaymen on seniority lists in western Canada probably will be working within a short time, due to the heavy movement of grain that is in sight.

Senator James Murdoch, vice-president of the International Brotherhood of Railroad Trainmen, declared on his arrival here.

The Senator said there was a considerable spirit of optimism and enthusiasm in the west. He had traveled to the Pacific Coast and back, he said, and the crop looked splendid.

WORK FOR WOODSMEN
Ottawa, Sept. 1.—The E. B. Eddy Co. Limited, has announced a programme that will give work to between 300 and 400 woodsmen this winter. The company will increase its cut in the Gatineau district by nearly 10 per cent to 55,000 cords, and will commence taking on new employees early next month.

COUNTERFEITERS HELD FOR SENTENCE

Vancouver, Sept. 1.—William McIlbride and William Richardson, who pleaded guilty Monday to a charge of counterfeiting, were remanded until September 7 for sentence when they make their second appearance in police court to-day.

Police believe that with the arrest of McIlbride and Richardson and the seizure of a counterfeiting plant, they broke up the headquarters of a ring that had been passing spurious fifty-cent pieces and other bad coins in Vancouver.

KIDD REPORT ALARM PASSES

Committee Members Urged to Test Public Opinion By Running For Election

Government Hastens to Assure B.C. It Does Not Approve Curbing Free Education

Towards the Kidd report, Premier Tolmie and his ministers have adopted a policy of temporary silence in the belief the best thing to do is to allow a few days for the effect of the report to cool off and to sense the public reaction towards it before committing themselves to any statement.

But while silence reigned as regards public statements, political opinion was crystallizing in a way to indicate that not very much would be done about the report, or that the government would attempt to stampede a number of changes, to be made gradually, such as in the size of the cabinet and easing down in some departmental overheads, have been under consideration for some time under the economy plan of Finance Minister Jones.

These adjustments, it was declared, would be carried out on Mr. Jones's advice, but always in a way to avoid any undue unsettlement or panic.

AGREE WITH REG. HAYWARD
Generally speaking, however, politicians in their privately expressed opinions—which they stipulated they did not want quoted—were in almost unanimous agreement with the advice of Reginald Hayward, senior member for Victoria, to "scrap the Kidd report."

One of the officers of the civil service organization proposed that the individual members of the Kidd committee test out the public's reception of their report by running for office in Victoria and Vancouver at the next election. (Turn to Page 2, Col. 4)

MORE FIGHTING IN MUKDEN

Manchurian Bands Make Raids; Japanese Say They Dispersed Them

Associated Press
Mukden, Manchuria, Sept. 1.—Japanese army headquarters to-day announced 300 Chinese guerrillas who raided Mukden early to-day were dispersed after two hours fighting in the streets. The raiders left twenty-six dead. There were no Japanese casualties, it was stated.

TOKYO REPORT
Tokyo, Sept. 1.—The newspaper Asahi to-day reported Chinese guerrillas had carried out a second raid on Mukden, Manchuria, within the week, but the War Office minimized the report.

An official communiqué said the reports in the Asahi were exaggerated, adding that "several hundred disorganized Chinese soldiers were found roaming in the vicinity of Mukden arsenal shortly after midnight and were easily dispersed by Japanese guards."

"All is quiet in the vicinity of Mukden," the communiqué went on. "Chinese bandits in the vicinity of Mukden are powerless to conduct concerted military action owing to the successful activities of the Japanese air force."

REMANDED IN MACHRAY CASE

Ex-Bursar of Manitoba University Too Ill to Appear in Court

Canadian Press
Winnipeg, Sept. 1.—A remand for one week was granted to-day to John A. Machray, K.C., former bursar and chairman of the board of governors of the University of Manitoba, charged with theft of trust funds amounting to \$47,251.

Too ill to appear in court, owing to a weakened physical condition, the sixty-seven-year-old man was represented by his counsel, A. E. Hoskin, K.C.

In seeking a remand, Mr. Hoskin told the court he had been unable to see his client since the previous remand. Mr. Machray, he said, was suffering from cancer. Radium treatment seemed to be of no avail. Since last Wednesday his client had had a very bad attack, but just now he seemed to be a little stronger.

RAILROAD GIVES WORK
Philadelphia, Sept. 1.—More than 2,000 employees in the locomotive and car repair shops of the Reading Company will resume work soon for a period of several months, according to announcement by Charles H. Ewing, president of the railroad.

President Ewing gave "gradual improvement in business conditions" as the reason for starting repairs on 3,800 cars and seventy-eight locomotives.

SALMON PACK IS ABOVE 1931

Canadian Press
Vancouver, Sept. 1.—British Columbia salmon pack for this season to date totals 779,048 cases, compared with 556,470 for the corresponding period of 1931. According to a statement issued to-day by Major J. A. Motherwell, chief supervisor of fisheries.

Sockeye pack totals 257,769 cases, compared with 259,852 last year. Cohoes, pinkies and chums show marked increases, particularly the pinkies, which total 168,357 cases, compared with 40,079 in 1931.

HELD FOR TRIAL
New York, Sept. 1.—Charles W. Schuman, forty-three, a member of the eighty-year-old jewelry firm of C. W. Schuman, was in custody today with three others after an investigation of a holdup in which the store was robbed of \$135,000 worth of gems last month.

TO BUSINESS FROM DIPLOMATIC POST

COL. HANFORD MACNIDER

Retiring Minister Did Much to Build Up Friendly Relations of United States and Canada, Says Washington Government Head

Canadian Press
Washington, Sept. 1.—President Hoover to-day accepted the resignation of Col. Hanford MacNider, United States Minister to Canada, and at the same time congratulated him on his part in the consummation of the St. Lawrence Waterway treaty.

Col. MacNider's letter of resignation said he was quitting his post to give his attention to "private affairs."

In accepting his resignation, the President said Mr. MacNider's part in the consummation of the St. Lawrence treaty was "a notable service, and one of which you may always be proud."

Discussing the resignation, one of the President's secretaries said he understood Mr. MacNider had "accomplished his main objective" in accepting the post of minister.

The secretary said Mr. MacNider felt his private business affairs needed his personal attention.

President Hoover's letter to Col. MacNider, accepting his resignation, follows in full:

"I regret exceedingly that your private affairs make it necessary for you to suspend for the present your contribution to public service."

"In accepting your resignation I need mention but one great service which you have performed during your term of office in Ottawa—the building up of mutual understanding between our government and the great government to the north."

By the co-operative spirit which you have been able to invoke with officials of both governments you have contributed in large part to the consummation of the great treaty for the development of the Great Lakes-St. Lawrence waterway. It is a notable service, and one of which you may always be proud."

Mr. MacNider, who is described in Who's Who in America as a farmer and banker, has his home at Mason City, Iowa, his family consisting of his wife and three sons, Tom, Jack and Angus. He has been Minister to Canada since 1930.

He gained his military rank during service in the Great War.

DOLLAR HOLDS GAINS MADE

New York, Sept. 1.—The Canadian dollar showed little tendency to edge off from its new high mark on the local foreign exchange market at the close to-day, ranging between 89 1/2 and 89 3/4 cents, the latter being 1/4 cent higher than yesterday.

The pound sterling, however, showed progressive easing, closing between 43.46 1/2 and 43.48 1/2, compared with 43.47 last night.

NEW AUTO INSURANCE LAW GOES INTO EFFECT TO-DAY

Drivers May Lose Licenses Until Accident Damages Are Met

British Columbia's new automobile insurance law, designed to prevent operation of cars by persons against whom civil judgments may be given for damages arising from motor accidents, went into effect this morning.

Automobile drivers will not be compelled to carry public liability insurance under ordinary circumstances, but court proceedings may cause suspension of both driving license and car license following an accident, unless damages are paid.

Car drivers convicted of offences such as driving to the common danger, where injury to persons or damages amounting to more than \$25 has resulted, will lose their licenses unless the commissioner of provincial police has on file a certificate or bond showing the accused person is financially responsible.

The certificates are now being printed for distribution to insurance companies. They will not apply to the present form of policy, a new standard form having been prepared to conform with the terms of the new law.

The act is not retroactive, and existing insurance against public liability will be accepted as evidence of financial responsibility in the opinion of leading insurers.

FLYING FAMILY ON LABRADOR COAST

St. John's, Nfld., Sept. 1.—The "Flying Hutchisons" were still at Hopedale, Labrador, to-day according to a radio message received here.

They were awaiting favorable weather reports before taking the next hop in their leisurely crossing of the North Atlantic Ocean.

The big amphibian, "City of Richmond" had been refueled and was ready to proceed.

Weather reports indicated the coast of Labrador was blanketed with heavy fog, and it was thought the party of eight might be held for another day at Hopedale, where they landed on Tuesday.

FOUR U.S. NAVY FLIERS KILLED

Colon, Panama, Canal Zone, Sept. 1.—Four United States Navy fliers were killed to-day when their plane crashed from 100 feet into ten feet of water near the fleet air base.

The victims were J. H. Schmitz, thirty-five, Brooklyn, N.Y.; W. F. Manthorn, chief radio operator, Brockton, Mass.; D. R. Glaze, aviation ordnance man, Hopkins County, Texas; and C. Bugoniani, twenty-two, Binghamton, N.Y.

GRONAU PLANE IS AT ATTU

Ochilshi, Hokkaido, Japan, Sept. 1.—Capt. Wolfgang von Gronau, flying around the world, to-day sent a wireless message that he and his three companions intended to hop off from Attu, in the Aleutian Islands, shortly.

Pilot von Gronau said the weather was the controlling factor. Their destination would be Kakumabetsu Bay in Paramushiro, the northernmost island of Japan. On their return to Germany their route would be the long coastal one covering Shanghai, Hongkong, Singapore and India. The rest had not been decided.

A. McDONALD IS CANDIDATE

Popular Sidney Man to Be Liberal Candidate in Islands Constituency

Ganges Convention Praises Liberal Leader's Efforts to End Chaos

Special to The Times
Ganges, Sept. 1.—Alex. McDonald of Sidney will be the Liberal standardbearer in the Islands constituency in the forthcoming provincial elections. He was nominated at a representative and enthusiastic convention held in the Mahon Hall here. The nomination was made unanimous on motion of Major Guy Boyer of Pender Island, who had also been a candidate for the honor.

Preceding the convention the executive committee passed a standing order of sympathy with Mr. and Mrs. W. M. Mount in the recent loss of their son by drowning.

The convention appointed Norman Wilson as chairman and W. M. Mount as secretary. A telegram of good wishes from T. D. Pattullo, leader of the Liberal Party in British Columbia, was read.

The convention passed a resolution expressing confidence in the leadership of the Liberal leader towards the Tolmie administration. Coupled with this sentiment of approval was an assurance that the Liberal Party of the Islands constituency would support Mr. Pattullo "in his efforts to bring to an end the present economic, financial, industrial and political chaos."

George S. Pearson, M.P.P. of Nanaimo, discussed provincial affairs, especially with financial matters.

HOOVER SCORED
BY VETERANSAssociate Press
Sacramento, Sept. 1.—The Veterans

of Foreign Wars unanimously adopted a resolution yesterday that condemns the President of the United States for using the army "to rout and maim a pitiful and inoffensive crowd of ragged and unarmed bums."

The resolution was introduced by Joseph Carl Thompson, a past commander of the New York post. It re-

solves that the United States Government presented to the world a movement against the use of gas and then ordered gas used against women, children, veterans and men, unarmed and defenceless, weakened by hunger and unemployment.

The resolution declares this encampment makes a solemn protest against the unnecessary use of the army, and that "the American public may become dramatically aware of this organization's attitude, that every post possessing a clubhouse be urged to mount the same with sand bags and post a military guard from now on until November, so the Washington evacuation may be fully completed in November."

The presidential election will be held in November.

DISCOVERY GIVEN
TO FRUIT GROWERSWill Mean Growing of Warm
Country Fruits in Northern
Regions; Say Russian
ScientistsBy F. B. Colton, Associated Press
Science Writer

Ithaca, N. Y., Sept. 1.—An important discovery in plant breeding, practically equivalent to growing oranges and other warm country fruits in northern regions, was announced before the International Congress of Genetics here yesterday.

The discovery will make possible crossing of northern and tropical fruits, and will open the way to creation of many new varieties, according to Dr. N. I. Vavilov of Leningrad, Russia, who credited it to Dr. T. D. Lyssenko of Odessa.

Inducing fermentation in seeds before planting them is the basis of Dr. Lyssenko's discovery. It makes possible shortening the period of growth, transforming winter varieties of plants into spring ones and late varieties into early. The fermentation is produced by "definite combination of darkness, temperature and humidity," according to Dr. Vavilov.

"This discovery," he continued, "enables us to utilize in our (North Russian) climate for breeding and genetic work tropical and sub-tropical varieties, which practically amounts to moving southern Florida northward."

"This creates the possibility of widening the scope of breeding and genetic work of an unprecedented extent, allowing the crossing of varieties that require entirely different periods of vegetation."

BARRISTERS
GIVE HONORSPremier Bennett Made Life
Honorary President of Can-
adian Bar AssociationHon. Ernest Lapointe Elected
Life Member of Organiza-
tion's Council

Canadian Press

Calgary, Sept. 1.—Premier Bennett has received the highest honor in the gift of the Canadian Bar Association. In recognition of his long services to the organization, he was elected honorary life president at the opening of the annual meeting here yesterday.

Another distinguished public man also was honored when Hon. Ernest Lapointe, M.P., former Minister of Justice, was made a life member of the council.

Mr. Bennett is the second man in the history of the association to hold the life post of honorary president. The late Sir James Aikins, who was instrumental in founding the body in 1914, was made honorary life president after he had retired from the presidency and the position lapsed on his death.

BOWELL SPEAKS

The amendment to the constitution conferring the honor on Mr. Bennett was moved by Hon. W. W. Rowell, K.C. of Toronto, and seconded by Louis S. St. Laurent, K.C. of Quebec, president during the last year. Mr. Rowell paid a tribute to Mr. Bennett as a lawyer, a statesman and a worker for the organization. He had been a member of the council since the beginning in 1914, and was chosen president in 1928, an office he accepted reluctantly, but out of a sense of duty, he said.

Mr. Lapointe's honor was conferred on him through a change in the constitution making all ex-ministers of Justice life members of the council. The honorary president always has been the Minister of Justice for the time being and the association wanted to ensure the continuance of retired ministers on the council.

PREMIER SPEAKS

The Bar Association was playing an increasing part in the public life of Canada, said Mr. Bennett, in accepting the honor. It brought about good feeling between the different provinces because members of the legal profession were active in public life throughout the country. What little he had been able to do for the association had been largely due to the help he had received from Mr. Rowell and Mr. St. Laurent.

In welcoming the association to Alberta, Hon. W. L. Walsh, Lieutenant-Governor, a retired Supreme Court judge, spoke of his continued interest in the legal profession.

Premier J. E. Brownlee said the visitors would learn something here of the problems confronting the agricultural industry. These had to be grappled with and members of the legal profession were under an obligation as natural leaders of public opinion.

FROM MARITIMES

Hon. John Doolittle, K.C., Attorney-General of Nova Scotia and honorary vice-president, replied to the address of welcome. While the Maritimes were not largely represented, he said, he felt at home because of the number of former Maritimers occupying prominent positions at the bar and on the bench of Alberta. He referred particularly to Premier Bennett.

In his presidential address Mr. St. Laurent dealt with private law in the province of Quebec and the difference between the civil law of that province and the common law of other parts of Canada. The difference was due, he said, to the fact French settlers had brought their own customs and laws to the Maritimes and the Anglo-Saxons had done the same.

Distinguished lawyers from all parts of Canada attended the opening and greetings from the bars of the United Kingdom, France and the United States were borne by high ranking lawyers of those countries. From the United Kingdom came Viscount Hailham, War Secretary, after attending the Imperial Economic Conference at Ottawa.

Premier Bennett, who is enjoying a visit in his home town after the work of the Imperial Conference, on Saturday will entertain the association on a motor trip to Banff.

RESUME LOANS
IN N.Y. MARKETCanadian Issues Again
Floated There, With C.P.R.
and B.C. Offerings

New York, Sept. 1.—Another indication of the increasing confidence of United States investors in the Canadian dollar is shown by the offering to-day of a block of \$2,500,000 Canadian Pacific railway convertible ten-year bonds at a price to yield about six per cent, says The New York Herald-Tribune in a feature financial article.

A short-term issue of British Columbia debentures several weeks ago signalled the resumption of Canadian financing on this market. These transactions are made possible by the realization of investors in this country that the current exchange situation offers an exceptional opportunity to obtain high-grade Canadian bonds at bargain-counter levels. The present discount of about 10 per cent on Montreal funds is reflected directly in the offerings. Bankers here are more firmly convinced than ever, after the Imperial Economic Conference, the Canadian exchange with the United States dollar, the paper adds.

This is the first public offering of bonds of the Canadian Pacific Railway Company in the New York market since July, 1930.

The block represents the unsold balance of the issue of \$12,500,000 originally offered last March in the Canadian market at par. The current offering price is equivalent to 101 in Canada. The bonds are secured by pledge of consolidated debenture stock of the railroad in the ratio of not less than \$100 principal amount of bonds for each \$100 principal amount of bonds.

TRADE TREATY
TO BE REVISED

Associated Press

New York, Sept. 1.—A special cable from Pretoria to The New York Times to-day said: "South Africa's trade treaty with Germany is likely to be revised in the light of the agreements at Ottawa."

Under clause eight the treaty provides for the economic extension to Germany of preferences on scheduled goods subsequently extended to Britain or the Dominions. The alternative is cancellation, requiring six months' notice, either of the treaty as a whole or of clause eight alone. Officials here are doubtful as to whether Germany would agree to cancel clause eight, since Germany showed a desire to retain the treaty recently when the South African protest was upheld against the proposed German preferences to Roumania.

"No special session of Parliament has been summoned to ratify the Ottawa agreements, but the cabinet is expected to enforce them by proclamation when Hon. K. C. Havenga, Minister of Finance, returns, and at the same time to settle the German treaty question."

MANY ATTEND
CLUB LUNCHEON

Representatives of many walks of life attended the Canadian Club luncheon in honor of the Earl of Bessborough yesterday. At the head table and among the many people at the other tables were distinguished citizens of the city and the province.

Those at the head table were: On His Excellency's right—Hon. S.

F. Toimie, Premier of British Columbia; Hildane, president of the Canadian Club; Hon. J. W. Forcham Johnson, Lieutenant-Governor of British Columbia; Chief Justice J. A. Macdonald; Brigadier J. Sutherland Brown, district officer commanding military district No. 11; Rt. Rev. Charles de V. Schofield, Bishop of Columbia; Mayor David Leeming, Lieut.-Col. Hill, Hon. R. H. Pooley, K.C., Provincial Attorney-General; Rev. Dr. W. G. Wilson; W. W. Davis; George Jay, police magistrate; Hon. J. W. Jones, Minister of Finance; Senator G. H. Burrage; A. M. T. Fairbairn, secretary to the Lieutenant-Governor; W. Ellis Brown, president of the Victoria Kiwanis Club; and J. C. Hayward, Reeve of Oak Bay.

MOSQUITOES TO
FIGHT DISEASEMalaria Carriers Developed
in South Carolina Against
Brain Softening Malady

Washington, Sept. 1.—Caring for the pestiferous insects as if they were alling babies, the United States public health service is succeeding at Columbia, S.C., in raising mosquitoes needed for treatment of dread parais.

Reversing traditional rough methods of mosquito handling, government scientists, co-operating with authorities of the state hospital for the insane at Columbia, have made anopheles quadrifasciatus and anopheles punctipennis, two of the species which transmit malaria, respond to kind treatment.

Coolers, fans, humidifiers and tea boxes have been set up in the Columbia mosquito laboratory, and the mortality among the young is so small that the majority of the insects used in experiments are hand-reared.

BRAIN SOFTENING
Health service officials regard the "brain" as an important aside forward in the treatment of parais, otherwise known as softening of the brain. Malaria is the most widely used method of treating the disease, although service officials, in fighting disease with disease, have had success through the transmission of rat bite fever. There are too many malarial mosquitoes and much money is spent in eradicating them, but in many instances one is not burn around when needed to bite a parais patient.

The growing swarm at Columbia is depended on to overcome that difficulty by having one of the pests ready when the call comes.

ARMAMENTS AGAIN

EARLY DISPATCHES TO-DAY RE- ported that the German government had submitted an official note to Premier Herriot of France, that that statesman had conferred with the British Charge d'Affaires before summoning his ministers, and that the following demands were included in the memorandum: Modification of the Versailles Treaty particularly as it affects the twelve-year service in the German army; amalgamation of the compulsory service and the period served by the militia; sanction for a German army of 300,000 men; permission for Germany to maintain heavy, light, and coastal artillery; permission for the maintenance of tanks by the German army; establishment of a complete German military aviation corps; establishment of a school for military pilots; extension of the German navy by the addition of airplane carriers, cruisers, and submarines; sanction for the construction of forts along the German frontiers; and permission for the creation of thirty-five war material factories in Germany.

These dispatches came from Paris; but a later one from Berlin seemed to suggest that the German government was surprised that anything had been given out for publication. The official press department at the German capital definitely said that the conversations took place between Foreign Minister von Neurath and the French Ambassador in Berlin, that the government had sent neither note nor memorandum to Paris, but had merely provided its ambassador there with a "loose aide memoire"—which means that the notes with which he has been provided represent the views of his government and afterward may become the draft of an official demand. This "aide memoire," incidentally, is referred to in association with the German official press department's statement that "Herr von Neurath's declarations emphasized to the French Ambassador that Germany has a right to demand clarification of the attitude toward her demands for equality." Germany insists, the statement goes on, "that others must disarm on the pattern of Germany's disarmament. Germany favors a radical general reduction of armaments, but this must be done according to the same principles for all states. The measures to be taken by Germany must fall in line with the character and extent of general reduction of armaments."

The significant paragraph in the dispatch from Berlin includes the statement that the ten demands referred to above were not mentioned in the conversation between the German Foreign Minister and the French Ambassador; but the press bureau head said von Neurath "simply insisted that what is permitted to others must also be permitted to Germany." This surely explains the "aide memoire," or the notes with which the German Ambassador in Paris has been supplied by the Von Papen government. Equality in the matter of armaments as far as Germany is concerned would naturally embrace her demand for the concession of her ten points. So it does not really matter whether an official note or memorandum was presented at the Quai d'Orsay or not, for the reason that a demand for armament equality means the same thing.

Apart from the details of a controversy of this kind, however, there looms up the danger to Germany herself in particular and to Europe as a whole if the pile of unnecessary armaments which already are costing the nations nearly \$5,000,000,000 a year is allowed to grow in size. In fairness to Germany, it must be said that she suggested to the disarmament conference that the best way to curtail fighting equipment would be for other nations to reduce theirs to her level. But her demand that she be allowed to increase her own proportionately with theirs is merely adding to the possibility of further human conflict and the inevitable chaotic consequences.

This new development in the European situation is a reminder that when a group of nations—no matter what their policies may be—attempt permanently to subdue in practically every manner other nations less able to put force behind their defiance, there is bound to be trouble sooner or later. Germany has a good deal for which to answer. Her present government is of the old Junker type. But she is a resourceful nation of 63,000,000 people, restless under what they consider is a repressive yoke. And if only the nations which were represented at the disarmament conference had gone there with instructions from their respective governments to agree to practical disarmament, the world would now be in a much happier frame of mind.

CHILD PRODIGES

PAMELA BIANCO, WHO AT THIRTEEN years of age exhibited painting in London and now at twenty-two is a well-known artist, is the daughter of another "child prodigy." Her mother, Margery Williams Bianco, wrote five novels before she was twenty-three, four of which were published. Mrs. Bianco is still a writer.

What makes this interesting is the fact that the world so rarely hears of child prodigies accomplishing anything at all after the period of youthful brilliance dims.

It is much commoner to hear of prodigies who once amazed their elders by unusual feats of intellect completely failing in later life to become adjusted to the business of normal living. Tragedies of child poets, child musicians and youngsters enrolled in colleges at fourteen and fifteen years frequently appear in the day's news. In fact, most parents infinitely prefer that their children should show an ordinary aptitude for games, play and school work than for them to exhibit those unusual abilities which cause them to be labeled "prodigies." Youthful precocious-

ness when it is so pronounced that youngsters attempt to compete with adults is regarded as a dangerous thing.

Now and then there may be exceptions to this rule but on the whole it is a sound and proven doctrine. Childhood and the concerns of childhood are far too precious to be sacrificed for things which may just as well be left to later years.

THE SERVICE OF YOUR NEWSPAPER

WHAT WOULD HAPPEN IN ANY city if it should be suddenly deprived of its daily newspapers?

Perhaps the best answer to that question can be found in what actually did happen at Butte, Montana, recently when the town's two daily newspapers suspended publication for several days during a wage-scale controversy with printers.

With the public cut off from its authentic sources of news, all sorts of wild rumors began to fill the air, gaining speed—and believers—as they traveled. Said one rumor: A terrible murder had been committed near the city.

Said another rumor: Bonus rioters had blown up the White House.

Said a third: President Hoover had been assassinated.

The city was in a turmoil. Wild stories of every sort were circulated and—human nature being what it is—found eager believers.

There is probably no clearer example of the important part that newspapers play in our daily lives. Butte's experience proves that suspension of newspapers, even for a limited time, can become a calamity of dangerous proportions.

Rumor and falsehood sink in the darkness, but truth loves the light and thrives upon it.

All of which helps to explain why newspaper editors, recognizing their public duty, are insistent in their demand for freedom of the press and opposed to censorship of any kind, since censorship is merely a form of suppression of the news. Not a few editors, faced with contempt citations by judges who arrogate unto themselves the power to say what the public shall read—and what it shall not—have gone to jail in defence of this principle.

"The truth hurts," says the old adage—but publication of the truth never hurt any community.

VON PAPEN'S "BLANK CHEQUE"

FACED WITH A COMBINATION OF political elements, among them the 230 National Socialists under Adolf Hitler, which could vote his government out of office, Chancellor von Papen of Germany is reported to have obtained from President von Hindenburg an undated decree dissolving the Reichstag, to be used to forestall a non-confidence resolution.

We know something about blank cheques in this country. But Von Papen has gone Premier Bennett one better. By filling in the date of his decree and promulgating it he can completely nullify the recent elections and continue dictatorial rule in defiance of all comers. It is a dangerous policy to pursue. So far the Hitlerites have fairly well restrained themselves. But we would imagine there is a limit beyond which they are not likely to go.

Von Papen's threat that he does not propose to permit the government to oust him and his colleagues, however, is not only a challenge to Hitler and his followers. It is a challenge to the other important parties which compose the Reichstag and is still a more serious challenge to the whole German people from the very Junker element of which they have decided they will have no more. Thus the prospect of civil war still hangs over the country.

The Toronto Star notes that a Toronto morning paper refers to itself and The Winnipeg Free Press as "international newspapers." The Star merely replies with the reminder to its local contemporary that it and the Winnipeg daily at least believe in international trade—upon which Canada depends for its daily bread.

Somehow the recommendation of the Kidd committee's report limiting free education does not click with its proposal that booze prices be lowered. Are we to assume that the committee expects that the money the taxpayers would save from the abolition of free education after the age of fourteen would find its way into the public treasury through the channels of the government bootlegging? More booze and less education would be rather a disreputable slogan for a self-respecting community, would it not?

WHAT OTHER PAPERS SAY

SENATOR BELCOURT DIES
 The Montreal Star

By the death of Senator Belcourt a sturdy champion of French-Canadian rights and French-Canadian culture has been removed. For more than a quarter of a century the late Senator was one of the principal influences behind every move to maintain and advance beyond the borders of Quebec the language, the prestige and the homogeneity of the racial group to which he belonged. An Ontario man by birth and a Quebecer by education, he was deeply, almost passionately, interested in the working out of the delicate, indeed at one time dangerous, problem of bilingual education in Ontario. He foresaw the inevitable collapse of the unfortunate Regulation 17, which did so much to embitter the relations of the two Canadian groups, but was wise enough to leave the final solution to time and a better understanding. His patience and forbearance were justified by the subsequent action of an Ontario Premier, who was capable of admitting that his own beliefs had undergone complete reversal under the acid test of time and experience, and was not afraid of an equally complete reversal in policy as a consequence of that change. Neither Senator Belcourt nor Howard Ferguson lost anything in stature by the outcome of that critical period in interprovincial relations.

For the rest, Senator Belcourt was a man of real ability, with a breadth of view which enabled him, while unwavering in his devotion to the cause of his compatriots of his own group, to appreciate and respect the views of those of the other. His methods were those of diplomacy rather than of "direct action," a fact which stood him—and Canada—in good stead more than once when in the service of his country abroad, notably in the case of the London Conference of 1924. He filled a not unimportant niche in national affairs and his death is to be regretted.

Loose Ends

Concerning the good old days when the Premier was at the Willows—the case of the late King Charles—what our university has been saved from—and the use of the newspapers.

By H. B. W.

I HAVE WAITED in vain for the newspapers to take some proper note of the historical importance of an exhibit at the recent Willows Fair. This exhibit showed a dazzling collection of modern plumbing, and beside it some of the rough pioneer arrangements which prevailed at the Fair grounds in the good old days when Dr. Tolmie, as he loves to recall, used to chaperone prize stock from his father's farm. I regret the newspapers' oversight or lack of vision, for assuredly this exhibit was the most important in the fair. Here, at a glance, were the march of civilization, the sweep of science, the emergence of these regions from the frontier to a high state of culture, to an era of expensive plumbing.

BUT THERE WAS more to it than that for the contemplative mind, for the man who remembers the good old days when Dr. Tolmie chaperoned stock at the Willows. Such a man could not help realizing, as he looked at the exhibit of old and new plumbing, or rather at that something fine and true has been lost in this march of civilization, this sweep of science, etc. All pioneers, all old-timers who were privy to the inner life of early British Columbia, will understand what I mean when I say that there was a certain philosophic calm, a certain thoughtful and brooding peace, a certain wholesomeness about the old arrangements which have been lost in the gleaming progress of invention. Life was more leisurely, there was more time for uninterrupted thought and profound cogitation, more opportunity for a man to withdraw and ponder in seclusion in the old days when Premier Tolmie was a boy.

THE KIDD COMMITTEE'S report in favor of allowing the Lieutenant-Governor to review the expenditure of the government and to restrain the extravagance of the Legislature is interesting historically. It might be a comfortable sort of arrangement for the government, since it could unload its financial troubles on the governor, but, glancing back over history, I fear the governor would not consider the arrangement very comfortable for him. He might recall that the last gentleman in a similar position who tried to restrain the government and curb the unruly Commons, met with an accident at Whitehall which terminated fatally. He lost his reputation, but which was more inconvenient, he lost his head. Perhaps, however, the Kidd Committee never heard of Cromwell, or the Petition of Right, or ship money, or the arrest of the Five Members, or the Battle of Naseby. Perhaps they didn't realize that it was by following precisely the program which they set out for the Lieutenant-Governor of British Columbia that poor King Charles came to a sudden end, with a pain in the neck. As Wordsworth wrote in his Ode on the Intimations of Insolvency:

King Charles was a jolly old sort,
 But they severed his neck
 And he ended a wreck
 When he followed the Kidd boys' report.

THERE IS ONE reassuring thing for us about the scandal of the University of Manitoba and the loss of almost all its large endowment funds. That is to say, nothing of the sort can happen to our own University of British Columbia. For the very sound reason that it has no endowment to lose. It is a curious thing that in this rich province, which has more than its quota of millionaires, where many men have made themselves rich by the exploitation of natural resources belonging to the public, nobody has given the university anything worth while. I am informed by one who knows that the highest seat of learning in this province of boundless wealth has about \$37,000 set aside as an endowment. If the seat of learning had to depend on the gifts of wealthy men, it would be bare indeed. The rich men of the province, as represented by the Kidd Committee, are quite prepared to close the university altogether and a lot of the lower seats of learning as well. The rich men of this province for the most part don't seem to like education. Perhaps if they knew what it was about they might like it better.

IN BUTTE, MONTANA, the newspapers could not publish for several days recently on account of labor troubles. The results were interesting. Wild rumors spread through the city. The people believed that the White House at Washington had been blown up by rioters, that President Hoover had been assassinated, that the country was on the verge of revolution. Business became panicky. Householders prepared to defend their families. By the end of two weeks without newspapers life in Butte was beginning to get intolerable. But when the experiment was made on a small scale with a white lie, it showed just what would happen in a civilization like ours if it lost all its newspapers even for a month. Business would be at a standstill because no one would risk any expenditure when he had no idea of prices or markets. Government as we know it would be impossible when no government could explain what it was doing to the public. But worse than the absence of correct news would be the presence of incorrect news. Such astounding tales of violence, war and pestilence would sweep across the world that every city would soon harbor its own legion of all invaders and develop into a separate, self-contained state of its own. Life as we know it just couldn't endure. You see, therefore, that the greatest service of the newspapers is not the printing of correct news, which is important enough, but in preventing the spread of false report. Next time you think this column or this newspaper is dull and uninteresting, just remember that if it were exciting it probably wouldn't be true. Remember how much trouble they are saving you.

PROMOTIONS IN B.C. POLICE

Provincial Police Inspector Parsons Slated For Assistant Commissioner's Rank

Present Incumbent to Retire; Sub-inspector Owens to Move Up

Promotion of Inspector T. W. S. Parsons, popular Provincial Police official stationed at Victoria, to the rank of Assistant Commissioner, second-in-command of B.C.'s force, is expected following the forthcoming retirement of W. R. Dunwoody, present holder of the office.

Assistant Commissioner Dunwoody has been on sick leave for three months and will tender his resignation owing to ill-health. It was stated by the Attorney-General's Department.

While no official announcement has been made, the promotion of Inspector Parsons to the position is generally anticipated. He has a brilliant police record and is one of the senior officers of the force.

The changes involved through the retirement of the assistant commissioner will also result in promotion of Sub-inspector Robert Owens, another well-known local officer, to the rank of inspector, it is expected.

He has had twenty years' service with the force, rising from the ranks to the position he now holds.

Other alterations in the organization are pending, it is reported.

DEFER ACTION ON SUGGESTION

Special to The Times

Duncan, Sept. 1.—The quarterly meeting of the Duncan Chamber of Commerce was held in the Agricultural Hall on Tuesday evening, with Captain Groves, president, in the chair. A letter from the Vancouver Board of Trade, suggesting that the chamber obtain a copy of the Kidd report, was laid on the table until the members had had more time to digest the report as printed in the press.

J. P. Forde, Dominion Government engineer, will be invited to address a meeting in Duncan on the St. Lawrence waterways project.

The board will press for a biological survey of the Cowichan River at the earliest possible moment and will ask C. H. Dickie, M.P., to interest himself in this matter.

Two useful suggestions as to help for the unemployed this coming winter were brought forward and the agricultural committee will get in touch with the authorities and go into these proposals. It was felt that unemployment relief work had got to be something more than work on the roads.

The fish and game committee will draft a request to the government that an engineer inspect and report on the suggested site for a fish rearing pond.

COMMITTEES NAMED

The president announced appointment of the following committees: Public works, H. D. Evans and W. Cook, Lake Cowichan; fish and game, Thomas Pitt; finance, E. G. Sanford; mines, K.

Forecast: Victoria and vicinity for 24 hours ending 5 p.m. Friday: Moderate to fresh westerly winds, generally fair and cool.

SCHOOLBOYS LEAVE CITY

After an early morning visit to the Sooke fish traps and lunch with their hosts and hostesses in town, the English Public School boys left Victoria this afternoon on their way to Duncan and thence to Cowichan Lake, where they will spend the night.

To-morrow the party will rest at Maple Bay after spending the morning in lunch trips on Cowichan Lake. At 11 o'clock Saturday morning lunch will be had at the home of Capt. and Mrs. Douglas Groves, Maple Bay, and in the afternoon Chemainus mill will be inspected. The party will proceed to Nanaimo in the evening and leave

from there at 7 o'clock on their way to Vancouver and home.

BUSY DAY
 Yesterday was one of the busiest and most interesting the boys from the famous English public schools have spent. In the morning they met Lord and Lady Beesborough at Government House and at noon heard the Governor-General speak on the Imperial Conference before the Canadian Club.

In the afternoon they were the guests of Mr. and Mrs. R. P. Butchart at Benvenuto and some were led by George I. Warren, commissioner of the Victoria and Island Public Bureau, on a fishing trip at Saanich Inlet. There were four boys in Mr. Warren's boat and each of them got a fish.

The boys went on to the Towner Bay Country Club in the evening and after eating dinner were accorded what was for them a very rare spectacle—an exhibition of native dances and games put on by Saanich Indians at the request of Mrs. L. A. Genge, distinguished visitor's representative for the Provincial Chapter, I.O.D.E. The Indians were in charge of B. J. Paul, one of the nobles of the tribe, who explained the meaning of the various games and dances.

Canada's export of wheat in the crop year ended July 31, 1932, totaled 182,803,882 bushels against 228,536,403 bushels in the previous year and the value was down from \$160,892,959 to \$109,545,288.

BEDTIME STORY

Uncle Wiggily and the Sad Bee

(By HOWARD R. GARIS)

He stung him hard

Uncle Wiggily was hopping away from his hollow stump bungalow one day, intending to go adventuring, when he heard a voice calling:

"Uncle Wiggily! Uncle Wiggily! May I come with you?"

"That's Baby Buntie, I'm sure," thought the rabbit gentleman. "No one else calls me 'Uncle Wiggily'." This was true, for those were the only two words of "baby talk" that Buntie, the little orphan rabbit, was allowed to use.

Uncle Wiggily turned and saw, just as he had guessed, that it was Baby Buntie calling to him and hopping after him.

"Wait for me, Uncle Wiggily!" begged the little orphan rabbit.

"I'm waiting," answered Mr. Longears with a laugh as he twinkled his pink nose. "But why do you want to come with me, Buntie?"

"Because," answered the orphan rabbit, "you see next week I'll have to go away to the Lady Mouse School and I'll have no time to come with you."

"Oh, we had fun yesterday when you found the last rose and the bug in it made the Bob Cat sneeze," said Buntie, laughing.

"Yes, that was fun," agreed the rabbit gentleman.

"And I think we'll have a nice adventure to-day," went on the little orphan rabbit. "So she and Uncle Wiggily hopped together over the fields and through the woods, wondering what was going to happen."

"They had not gone very far before, all of a sudden, they heard a buzzing sound in the air and Buntie exclaimed:

"Airplane! Airplane! I think an airplane is coming, Uncle Wiggily!"

"No, the buzzing sound isn't loud enough to have come from an airplane," said the rabbit.

"Then what is it?" asked Buntie as the buzzing sounded louder.

"I think it is this bee," said Uncle Wiggily, pointing to a large, yellow one coming along in the air. The bee alighted near the rabbit gentleman and Baby Buntie and Mr. Longears said:

"Hello, Bee!"

"Hello!" was the buzzing answer, but given in such a gruff and grumpy voice that the rabbit gentleman asked:

"What's the matter? Aren't you happy, Mr. Bee?"

"No, I am very sad," was the answer. "I'm a sad bee."

"Why?" asked Baby Buntie, who knew the Bee would not sting her nor Uncle Wiggily for they were friends of the buzzing creature.

"I am sad," said the Bee, "when I think that after all my hard work of gathering honey from the flowers, now I have to start in and eat it all up. By spring there will be none left. I shall have to eat the honey I worked so hard to gather this spring and summer. Oh, it makes me sad!"

"You are very foolish," said Uncle Wiggily. "You should be glad, Mr. Bee, and not sad, that you have honey to eat. Many other creatures work hard all summer, but they can store nothing away to eat in the winter. You are lucky!"

"I don't think so," buzzed the Bee. "For even if I could be happy thinking that I have enough honey to eat in the winter, still I feel sad when I think

TWINKLE, TWINKLE SCREENIE STAR— BUT SOME PLAYERS DODGE THE HONOR

By ROBERT GRANDON

Over at Charlotte Rucker's English village tea-room for a sip and a bite with Mrs. Bob . . . stopped to chat at the table where Stuart (Dum-cluck) Erwin and June (Charming) Collyers were hobnobbing in a truly married way . . . extended congratulations on his excellent work in "Make Me a Star."

"They want to star me in my next picture, but I passed it up," Stuart confided. "Perhaps some day Bob . . . but just now I'll stick to the feature roles and dodge trouble."

Stuart's not alone in his refusal of headlight honors, for after all a star is beset with difficulties not encountered by a featured player . . . Walter Huston refused a similar proposition not so long ago. Why seek stellar vehicles when there are fat parts aplenty? . . . Lewis Stone generally outshines the star he supports, but Lewis knows that when films flounder, woe betide the star . . . Roland (Funny-face) Young is another wise in his determination to remain a supporting actor who's ever in demand . . . and Adolphe (Immaculate) Menjou understands that happiness comes from suitable parts and not from star roles.

Charles (Ho-man) Bickford could have been starred several times, but he's refused to bite. His independent attitude, of course, has proved something of a hindrance to Charlie.

Featured players such as these are those who support stars . . . They have the satisfaction of being cast in parts that suit them best . . . and many a star has died because roles picked for them proved anything but appropriate.

If you are entertaining why not serve some of Hollywood's favorite dishes? Robert Grandon will send you an illustrated leaflet, "Favorite Recipes of

STUART ERWIN refuses to be starred

LEWIS STONE prefers supporting roles

Famous Stars" containing these recipes if you will send 3 cents in stamps and a self-addressed, stamped envelope. (Copyright, 1932, Publishers Syndicate)

FINE DISPLAY AT LAKE HILL

Ward One, Saanich, Held
Ninth Annual Exhibition Yes-
terday; Prize Awards

A splendid display of flowers, vegetables, cooking and needlework marked the ninth annual exhibition of Ward One, Saanich, held yesterday at Lake Hill Community Centre, under the auspices of the Lake Hill Women's Institute. Reeve William Crouch opened the show and warmly complimented the exhibitors upon the excellence of the entries and their arrangement. Mayor Leeming also spoke briefly, remarking that local shows were of great value in advancement of a district. The speakers were introduced by Mrs. R. Mercer, president of the institute.

The judges were: Fruits and vegetables, W. J. Sheppard and James Travis; fancywork and home cooking, Mrs. Martin; school work, Mrs. Cowley and Mrs. Shaw; bird houses, Mr. Andrews. The conveners of the various sections of the show were: Fruit, Mrs. R. Mercer; needlework, Mrs. Porter and Mrs. Carpenter; vegetables, Mrs. Currie and Mrs. Findlay; home cooking, Mrs. W. Peddie; afternoon tea, Mrs. Simmonds; home cooking and candy, Mrs. P. Sheritt; ices and soft drinks, Mrs. Carpenter.

Non-competitive displays, which attracted much attention, included a collection of carved wood shown by Mrs. F. B. Yates; samples of baby clothing shown by nurses of the Saanich Health Centre; a display of Shetland sweaters by Mrs. G. Brown; a flower display by Ballantyne Bros., and an exhibit of preserves and pickles, locally packed at the Holms factory at Lake Hill, and shown by the Lake Hill Grocery.

Kaye Don Figures to Lift Harmsworth Trophy This Year

Gar Wood Should Have to Travel Faster Than Ever Before to Win

World Boxing Champions Openly Flaunt Rule Made by N.B.A.

KAYE DON, gallant English speed boat driver, is at Detroit intent upon removing the Harmsworth Trophy, a prize that has rested in the United States for twelve years. And there is every indication that he will be successful.

The other day, in a speed trial on Lake St. Clair, Don drove his boat along at 115 miles an hour, and, as the clockers say, he was only "breasting." What his boat, the Miss England III, will do when really pushed remains to be seen, but his record of 119-plus miles an hour is established and accepted.

Don is meeting Gar Wood, who with his veteran mechanic, Orin Johnson, will be "in the coop" of Miss America X, a new speedboat whose qualities remain a secret with owner and builder. The two will race beginning Saturday, for the best two out of three heats on Lake St. Clair near Detroit.

Whether the United States boat can do 120 miles an hour is a secret. Wood has made his test without announcing the timing. It is certain it will have to go fast to win, and if Gar Wood does win, he will travel over the water faster than he ever has done before.

Until last year United States had enjoyed possession of the Harmsworth Trophy since 1929 without serious competition. In 1929, Wood's first Miss America defeated the English defender, Maple Leaf VII. Wood's boat traveled sixty-one and a fraction miles an hour.

Since then the speed has been steadily increasing. In the first heat of last year's race, Don's boat traveled more than ninety-two miles an hour for four of the six laps and 110 miles an hour on the straightaway.

The first heat of that 1931 race was unprecedented for speed. Wood's Miss America IX hit ninety-nine miles an hour on one complete lap, but could not gain on the challenger.

But, after the first heat, it will be remembered that Don was tricked into crossing the starting line before the gun. His boat was disqualified. So Miss Gar Wood's Miss America IX, which had lured him across the line, was the result was that Miss America VIII, piloted by Gar's brother, George Wood, simply had to breeze around the course in the last two heats to retain the trophy.

Don then took a terrific scare into the defenders' last year. Gar Wood admitted that he deliberately tricked the British pilot, though later he denied it.

Now Don has a new and faster boat, a craft that has proved itself able to screech along in the water at 120 miles an hour.

If Wood hopes to beat Miss England III without resort to strategy, he will have to whip Miss America X along at a speed that invites death on every turn.

Whether or not he can do it will be decided only when he tries.

The National Boxing Association, governing organization in Canada and the majority of the cities in the United States, has ruled that holders of world championships must defend their titles every six months. Extension of time may be granted if suitable evidence is produced that a champion is incapable of fighting a suitable opponent, fails to post a forfeit and sign articles for a championship match.

So far the N.B.A. has had little success making world weight champions risk his title twice a year. Max Schmeling twice flouted the N.B.A. and got away with it.

Jack Sharkey won the heavyweight title under the N.B.A. rule should defend it by December 21. Sharkey probably will not get into the ring again until next summer, even at the risk of the N.B.A. taking away its recognition of him.

The N.B.A. champions and the date on which they won or last defended their title and the expiration of the six months' period follow:

Heavyweight—Jack Sharkey, Boston, won title June 21, 1932. Six months expires December 21, 1932.

Light-heavyweight—George Nichols, Buffalo, won title March 18, 1932. Six months expires September 18, 1932.

Middleweight—Marcel Thil, France, won title June 11, 1932. Six months expires December 11, 1932.

Welterweight—Freddy Fields, Los Angeles, won title January 28, 1932. Six months expires July 28, 1932.

Lightweight—Tony Canzoneri, New York, defended title November 29, 1931. Six months expires May 29, 1932.

Featherweight—Tommy Paul, Buffalo, won title May 26, 1932. Six months expires November 26, 1932.

Two Senior Beside One Intermediate Divisions Listed

Senior "A" and Senior "B" Sections to Be Introduced When Play Opens at End of October; Changes to Be Submitted to Adjourned Annual General Meeting September 22; Expect Many More Teams to Play This Year; To Care for Injured Players

Establishment of three leagues, a senior "A," senior "B" and the regular intermediate division, on a restricted plane, will be the objectives of the Victoria Rugby Union for its big 1932-33 season, it was announced to-day by Secretary Fred Cabellu. The rearrangement of the city's former loops, aimed to bring in more teams from both local and Island points, features the new constitution of the union on which the executive has been working all summer.

HUAT WINNER OVER CANUCK

French Fighter Decisions Pete De Grasse When Commission Reverses Decision

Montreal, Sept. 1.—Two out of three judges yesterday evening decided that Pete De Grasse, Montreal, had outpointed Eugene Huat, Paris, France, in their twelve-round bout at the Forum. But the Montreal Boxing Commission reversed the ruling, and Huat is officially the winner.

The judges, Chene, Lynch and Ritchot, alloted in favor of Huat; Lynch and Ritchot for De Grasse. The Indian was announced as winner and he left the ring. Shortly afterwards the commission held an emergency meeting and declared Huat winner. Most of the crowd had left the arena before the reversal.

The fight was close and interesting with De Grasse carrying the early rounds, and Huat scoring near the finish. In the twelfth Huat scored a knockout.

MATCH PLAY TO COMMENCE

Continue Play in Class "B" City Golf Championship on Saturday

On Saturday at the Gorge Vale Golf Club the first round of match play in the Class B city championship will be played. On Sunday the quarter-finals and semi-finals will be run off with the final on Monday. All matches will be over the eighteen-hole route.

In the first round Terry Peers, winner of the medal honors last Sunday, will start up against J. Barlow.

The draw and starting times for Saturday's play follow:

1.30 p.m.—T. S. Peers vs. J. Barlow.
1.35 p.m.—D. Fairbairn vs. D. A. Neale.

1.40 p.m.—A. J. Wakeman vs. C. S. Burgess.
1.45 p.m.—C. Milton vs. L. J. Roach.

1.50 p.m.—P. Pearce vs. A. Dowell.
1.55 p.m.—R. Love vs. J. R. Robinson.

2 p.m.—J. L. McIntyre vs. W. P. Bowden.
2.05 p.m.—C. F. Banfield vs. R. Humberston.

2.10 p.m.—D. Brown vs. E. G. Beasly.
Bert Waude, bye.
W. J. Clayton, bye.
J. A. Wiley, bye.

Golf Club Members Will Meet To-night

The regular monthly meeting of members of the Gorge Vale Golf Club will be held to-night at 8 o'clock at the clubhouse.

As the result of changes which will be placed before the adjourned annual meeting on September 22 for approval, the intermediate league will be restricted to bona fide school teams and clubs with players under 160 pounds in weight.

It is thought Victoria College will be the team affected most by this change. To overcome any difficulties that club will be invited to play in the senior "A" division, unless it chooses to enter a team under the weight specification.

NEW SUGGESTIONS
Following are the union's suggestions for the formation of the "A" and "B" divisions for senior rugby in Victoria and districts surrounding the city:

"At the commencement of the season each club shall supply the secretary of the union with the names of players who shall comprise teams for 'A' and 'B' divisions. Not more than twelve names shall be given for 'A' division, but no limit shall be placed on the number for the 'B' division."

"Players from the 'B' division shall be available at any time for 'A' division if required for purpose of making good any vacancies of a temporary nature, but should such players be available at any time for 'A' division their services shall not be further available for 'B' division, as hereinafter set forth. In other words, should a player from 'A' division be unable to play owing to injuries or other causes, a 'B' division player may be used to fill his place, and such 'B' division player shall automatically revert to his own division when his services as substitute are no longer required. Each club shall notify the secretary of the union prior to the game in which such substitution is required."

"A division players shall not be eligible to play on 'B' division teams, unless a player from 'A' division is permanently relegated to 'B' division, and in such case this player shall not be eligible for the balance of the season for 'A' division."

"No player shall play in divisions for any other team than that of the club of which he is a bona fide member."

AN INCENTIVE
"By the foregoing system, every player has a special inducement to keep fit and in good condition so that he can give the best that is in him. 'A' players will know that if they do not measure up to standard they stand a chance of being placed in the 'B' division, while 'B' players should put forth every effort to gain promotion to 'A' division. This should promote a healthy feeling of rivalry and give some special object to strive for."

These remarks are merely suggestions and criticism is welcomed by the union.

The idea of signing on only twelve men for the Senior "A" grouping is aimed to give clubs a chance to use at least three of their Senior "B" men in the first few games in order to determine which of the most suitable for the higher competition.

OPEN PLAY IN OCTOBER
The union looks forward to having plenty of grounds for its league fixtures this winter. Play will not start until the first week in October, but will get under way not later than the last Saturday in October.

For feature games the union hopes to secure the use of the Royal Athletic Park, as it has done in former seasons. The Canteen Grounds, New Naval Barracks Grounds, Work Point and Oak Bay Park will be available for all teams, while the High School grounds may be used by Victoria College for its games and the Mount Toimie pitch by the University School in its fixtures.

It is expected the Canadian Scottish will enter three teams, one in each of the senior sections and another in the intermediate division. Duncan may be induced to send a squad into the senior "B" division. The V.M.C.A. and Victoria High School are seen as probable entries in the intermediate division. University School, Brentwood College, Shawanigan Lake School and proleas College are also expected to compete in that section.

The James Bay Athletic Association will very likely send in two fifteens, while the Navy will probably enter one in the senior "A" section. Work Point Barracks may send a squad into the "B" section.

The Wanderers and Fifth Regiment, other clubs operating last year, may also enter three teams.

ADDED FEATURE
As a special feature this year the Union has made arrangements with the Jubilee Hospital to care for players injured in games on the understanding the hospital will be given one of the major gates of the season.

The union has also made plans to donate \$500 towards the fencing of the Macdonald property, which will eventually be made into a rugby field. It will not be ready for play this year, however, it is understood.

Erratic Pirates Score Fifth Win In Latest Streak

After Splurge That Carried Them to Top of National League and Quick Plunge Down Standings Pittsburgh Opens Another Challenge; Traynor's Home Run Beat Boston Yesterday; Chicago Scores Twelfth Straight Win; Freitas Has Win Streak Broken in American

Pittsburgh Pirates, fighting to hold their runner-up position in the National League pennant race, certainly can not claim honors for consistency.

In their run up the standing and their quick tumble out of a commanding position at the top, the Corsairs have played alternately brilliant and mediocre ball.

Now they are away on another winning streak, accounting for their fifth straight yesterday when Capt. Pie Traynor parked a home run in the bleachers with Combsky aboard to defeat Boston Braves, 2 to 1.

Chicago Cubs ran their winning record to twelve consecutive games in a 10 to 9 decision over New York Giants. Brooklyn Dodgers took a well-pitched and a slugging orgy from the Reds, winning the opener 7 to 1 and the nightcap 11 to 10.

In the American League Detroit Tigers broke Tony Freitas's winning streak at ten straight, when Elton Hogg set his two homers and Gehring one to defeat Philadelphia Athletics 5 to 4. Washington Senators completed their sweep of three-game series with St. Louis Browns, winning 7 to 6, with the aid of some hard and timely hitting and six St. Louis errors.

All other teams were idle.

Bobby Cruickshank in Brilliant Rally to Beat Watrous; Series of Upsets

St. Paul, Sept. 1.—Long distance golf records blew over Keller to-day as the fight for the professional championship entered the second round minus all but four qualifiers from the 1931 show.

Walter Hagen, five times king of the big professional championship, was among the missing—the victim of a record smashing forty-three hole struggle against the iron-nerved Johnny Goffen, Noroton, Conn.

"Wee Bobby" Cruickshank, New York, was still in there pitching with one of the most valiant uphill fights in golf on the right side of his ledger. Of the 1931 qualifiers, only Golden, Ed. Dudley, of Wilmington, Del.; Abe Epstein, of Chicago, and the defending titlist, Walter Hagen, of Albany, carried on the fight.

MANY UPSETS
Not a single match, involving two outstanding favorites, was offered on the second thirty-hole round-bell of fare, so disastrous were the sweeping waves of upsets.

Both engagements, which capped a day of upsets that victimized such stars of the professional world as Horton Smith, Chicago; Charles Lacey, New York; Paul Runyan, White Plains, N.Y.; and Denny Shute, Cleveland, broke all records for overtime golf.

Hagen's losing battle against the veteran, unperished, was the greatest that stormed over the course, but it was Cruickshank who fought the greatest fight.

With only thirteen holes of the regulation distance of thirty-six holes to travel, Watrous had "Wee Bobby" nine down; on the fourth green, he felt sorry for his rival and conceded a six-foot, down-hill putt for a half that he had missed.

That was the spark that touched off Cruickshank's fighting heart. He won nine of the next eleven holes, forcing Watrous to hole out long putts to get those two halves, and then went on to win on the forty-first hole.

Watrous was on the par four hole nicely in two and then missed from three feet, taking three of them in all and losing the struggle as Bobby derided a spectacular shot from the rough to within five feet from the pin and dropped it.

Two more extra-hole matches were fought, won and lost as the overtime fever caught on. Abe, field Reggie Miles, tiny Scot from Ashland, Ohio, won the first by traveling thirty-seven holes to upset Horton Smith, while Vincent Eldred, Pittsburgh, staggered Runyan with a victory on the thirty-eight.

Miles won his match and the cheers of the gallery by banging a pretty shot from the rough four feet from the pin for a birdie three; Eldred won his with a regulation par as Runyan flurried with the rough.

Until the orgy of overtime matches spread like wildfire, Olin Dutra, tournament medalist from Santa Monica, Cal., had provided the fireworks with a 7 to 8 rout of George Smith, Chicago.

An even greater golfer than he was Tuesday when he scored 71-69-140 for the medal. Dutra, reeled off a 66, six under par, in the morning to get a one-hole lead and then with par golf in the afternoon to freeze out his rival.

Philadelphia, Sept. 1.—Tony Freitas's winning streak was halted at ten straight yesterday as the Detroit Tigers nosed out the Athletics 5 to 4 and ended the series here at two victories apiece.

Freitas pitched only seven innings but during his time he served home-run balls to Gehring and Hogsett, his mound rival, and these blasts over the right field barrier gave the Tigers the margin of victory.

Cricket Schedules Here Re-arranged

Race For Top Berth Tightens Between Victoria and Wanderers

Eight More Games, Including One Knockout Fixture, Left on Schedule

Eight more cricket games, seven in the second half of the league and one in the knockout series, will be played by the teams of the Victoria and District Cricket League before this season's schedules are completed. It was announced to-day following a special meeting yesterday evening, at which a re-arranged schedule was drawn up.

The matches, with the grounds on which they will be played, follow:

SEPTEMBER 3
Cowichan vs. Incogs, at Mount Toimie.

SEPTEMBER 10
Wanderers vs. Victoria, at Work Point.
Albions vs. Incogs, at Mount Toimie.
Five C's vs. Cowichan, at Beacon Hill.

SEPTEMBER 17
Victoria vs. Albions, at Work Point.
Incogs vs. Wanderers, at Mount Toimie.

RACE TIGHTENS
As the race draws to a close, leading teams in the different leagues are figuring more closely their chances of gaining first honors.

Wanderers, leaders by one point, have but two more league fixtures to play, while their closest rivals, Victoria, have three. Providing the Wanderers take their remaining matches, Victoria will have to win all three on their schedule to take the league.

The possibility of one of the lower ranking elevens upsetting the stage with a victory over one of the leaders has aroused even greater interest in the outcome of the league.

Anything might happen before the final wicket is taken on the last day.

April The Fifth Doubtful Starter

London, Sept. 1.—Tom Walls, owner and trainer of April the Fifth, Derby winner of 1932, said yesterday he considered his horse a doubtful starter for the St. Leger Stakes of September 7, though he paid the fifty final sovereigns acceptance fee Tuesday.

Twenty-one probable starters remain out of the scores nominated in November, 1930. The St. Leger, a classic of the English turf, is for colts and fillies foaled in 1929, and is run over a distance of about one mile, six furlongs and 129 yards at Doncaster.

The Aga Khan's Udaipur and Daur, together with W. Singer's Orwell, once highly-touted favorite for the St. Leger, have been running even for St. Leger betting honors at about 5 to 1.

FOOTBALL MEETING
The Victoria City Football Club will hold a meeting this evening in the Veterans of France clubrooms at 8 o'clock. All members of the club and other persons interested are requested to attend.

VICTORY GIVES VICTORIA HALF

Team Takes First Honors in Second Half Wednesday Cricket

Defeat Saanich Handily While Five C's Take Measure of Hudson Bays

With four wickets to spare Victoria Cricket Club took the measure of Saanich, and with their victory gained the second half laurels in the Wednesday League at Beacon Hill yesterday. As they were taking first honors on the home stretch, Five C's sent Hudson's Bays, winners of the first half, down to defeat by twenty runs and two wickets.

Once again rangy Reg. Wenman, member of Canada's all-star team against the Australians, starred for Victoria. In addition to scoring thirty-seven runs, he took six wickets for to-day's team.

His bowling performance was the best of the day.

GOOD STAND
Andrews and Grant made a good stand for Saanich, the former gaining forty-six before he was bowled by Drum, while the latter knocked out thirty-six before being run out. Austin was next in totals with a six.

Pendray scored thirty-five for Victoria and Hamber, twenty-nine. Pendray's fifty-one and Kinch's thirty-four played a big part in the Five C's win over Hudson's Bays. Oakman and Stenton each scored a useful twenty-eight for the Bays, while Hanson contributed twenty-one, but the remaining members of the team failed to add more than twelve to the total.

Green Mill Away To Good Lead In City Baseball Final

Leo Holden Pulls Iron Man Act To Blank Sons' Nine

Takes Mound for Second Time in Three Days to Hold Sons to Lone Hit in Five-inning Game and Win 2 to 0; Craig Secures Lone Hit; Four Errors Costly to Sons; Second Game To-morrow Evening at 5.30 o'clock; Double-header on Monday

With Leo Holden, their leading pitcher, pulling the Iron Man McGinnity act, the Green Mill ball club turned back the Sons of Canada 2 to 0 yesterday evening at the Royal Athletic Park in the opening game for the city senior baseball championship. Holden, after pitching his club to a win over the Elks on Monday evening, went back into the box to stand the Sons back on their heels.

The cafemen and Sons are engaging in a best four-out-of-seven series to decide the championship and the right to represent Victoria in the provincial play-offs. The Sons finished in first place while the Green Mill eliminated the Elks three games to one in a preliminary play-off.

Yesterday evening saw Holden at his best. The game only went five innings, and during that time the Sons were only able to secure one lone hit, Johnny Craig, first batter to face Holden, crashing the ball to centre field for a single. The big speedball hurler struck out nine and walked none. Holden, who has borne the brunt of the pitching duties for the Green Mill all season, will be a big factor in the success of the cafemen in the finals. Lloyd Cann, who went to the mound for the Sons, was nipped for four hits, while he struck out six and walked one. However, his teammates committed four errors, while the Green Mill had only one bobbie scored against them, and it was not costly.

Bill Brouseau, shortstop for the Green Mill, led the hitters with two safeties out of three trips to the plate. The teams will meet in the school game of the series to-morrow evening, starting at 5.30 o'clock.

TWO GAMES MONDAY
It was announced to-day by "Red" Ramsdale, league secretary, that the clubs will play two games on Monday, one at 10.30 o'clock in the morning, and the second at 3 o'clock.

The Sons took the field without the services of "Kim" Campbell, their regular first baseman. Jack Bacon, who usually performs behind the plate, went to the initial sack, while Colin Campbell was called into the game as catcher. Loss of "Kim" weakened the Sons both in fielding and hitting strength.

The Green Mill looked dangerous in the first inning. After Love had flied to Holman, and Zeiler grounded to Hilton, Brouseau lined a single to centre field. Holden was safe when Doherty dropped his long fly to left field. Brouseau—reaching third. Bridgewood struck out to retire the side. The Sons got two men on in their half with nobody out, but were unable to score. Holden got his drop ball working to perfection and proceeded to strike out Bacon and Doherty, while Holman grounded to Love.

SCORE LONE RUN
In the third inning the Green Mill secured their first run. Love was hit by a pitched ball and sacrificed to second by Zeiler. Brouseau hit a daisy cutter at Bacon and the first baseman threw to Cann, who ran over to cover the sack, but the pitcher missed the toss, and before the ball could be recovered Love was across the plate. Brouseau in the meantime had reached second. Holden struck out, while Bridgewood grounded to Hilton. Another run was credited to the cafemen in the fourth. Next hit late to drive the ball through first base for a single. Dunc walked. Williams

The course over which the Harmsworth trophy race will be contested for by speedboats representing Great Britain and the United States is shown on the map. The scene is just off the shore of suburban Detroit, and the race annually draws crowds estimated at 300,000 to 500,000 people. The first of three heats, best two out of three to win the prize donated by Lord Northcliffe in 1903, is scheduled to be run Saturday.

An action picture of Miss America X, Gar Wood's Harmsworth trophy defender, is shown at the top. Below are Mechanic Orin Johnson, left, and Gar Wood.

Blagden Captures Marathon Swim In World-record Time

Memphis Lawyer Covers Grueling Fifteen-mile Course in Lake Ontario in Remarkable Time of 7 Hours, 19 Minutes and 52.3 Seconds; Second and Third Finishers Also Shatter Former Record; Marvin Nelson Challenges George Young to Five-mile Match Race; Young Announces Retirement

Toronto, Sept. 1.—Fully rested and "glad it's all over," George Blagden, the new king of swimdom, to-day rested on his laurels. In a gruelling fifteen-mile grind, Blagden yesterday defeated a field of 189 of the world's best natators to win the Canadian National Exhibition's open marathon, and the Memphis, Tenn., law student, who proved somewhat of a surprise, beat the greatest opponent of all, old Lake Ontario.

In second place was Gianni Gambi, the "Italian windmill," who threshed his way into that position in a rousing finish. Blagden, Gambi and Isador Sponendor, Port Colborne, Ont., who was third, broke the world's record for the time, with Blagden finishing in 7 hours 19 minutes 52.3 seconds. The best previous for the distance was established by Marvin Nelson, Port Dodge, Ia., in 1920. On that occasion Nelson won in 7 hours 45 minutes 36.2 seconds. Yesterday he beat that time himself, but could not do better than finish fourth.

HAS GOOD MARGIN
Blagden won the swim by more than 200 yards, with Gambi in second place, and Sponendor, the first Canadian to finish, in the third position. Next came Marvin Nelson, and in fifth place was Bill Goll, New York. Then in the final money place was Harry Glancy, Cincinnati, Ohio.

George Young, Toronto, favorite for the race, was nearly drowned when he crashed into a float shortly after the halfway mark had been reached. Young, a favorite to win the event, was in fifth position at the time. Only prompt aid from other swimmers and from nearby boats prevented a tragedy, for Young sank immediately after striking the float, and was unconscious when taken from the water.

On a cot in the emergency hospital where he was rushed, Young announced his retirement from swimming saying, "Not again. I've got to quit floating sometime and it might just as well be now."

Marvin Nelson, winner of the C.N.E. marathon in 1930, who took down fourth money in yesterday's event, announced yesterday evening he would like to meet Young in a five-mile race before the close of the exhibition. "I beat him at Sault Ste. Marie and again at Stratford, but the people say he is stalling," Nelson said. "I am ready now to take him on when he is in the best of shape."

Blagden, twenty-two years, a swimmer since he learned the dog paddle in the Mississippi when a youngster of

LADY AGGIE WINS AGAIN

Thoroughbred From Bonnie Brass Stables Scores Third Straight Victory

Lol Pays Off at \$21.60 For Show; Daily One-two-Bet Returns \$74.30

Lady Aggie, four-year-old mare, which sleeps in the Bonnie Brass Stables, registered her third straight victory in a week at Colwood race track yesterday by taking a half-length decision from Mrs. B. A. Newman's Little Broom to win the feature sprint of the day.

Jockey Henson booted her home after a smart ride in which he took her to the front and stayed there. Little Broom was unfortunate in getting away from the gate a little slowly but he made up plenty of ground. Somen was third.

Favorites had another great day at the track with only one winner paying off at better than two to one. This was R. Congdon's Kernville, which took a comfortable decision in the first to hand up \$18.15 straight. Two other ponies paid off in double figures for the show slot. Lol registering \$21.60 and Irish Whittier \$14.45. The one-two bet paid high price of the day, \$74.30.

Hayward booted Kernville into an early lead in the first and brought Congdon's red silks home in flying style. Plenty Money was second and Lord Goldstream third.

WINS EASILY
Sir Turpin was taken to the fore by "Spec" Richardson rounding the bottom turn and came on to win with plenty in reserve in the second. Van Extention got the place and Lol surprised by taking third.

In a driving finish, the prettiest of the day, Prince Goldstream from Asa Smith's stables completed the third, completing the daily double. Primrose Day finished fast for the place and Verna Loan, the pace-maker, hung on for the show.

Hostain was an easy winner in the fourth and Maurice D. took second after making up a lot of ground. Irish Whittier caught the judge's eye for the show.

CARILINA WINS
Carilina was the class of her field for the sixth. Palace took her to the front on the back stretch and finished fast enough to hold off a stout closing bid from Extention. Meta Frances was third.

In a driving finish Ollie booted Flashy home in the last with Queen Marie and Plenty Gold running in that order.

Palace was the only double-winner among the jockeys.

Silent "Understanding" Generally a Long-Drawn-Out Waste of Time to Girl. Brothers Should Promote Sisters Socially. Girl Too Young to Marry at Sixteen

DEAR MISS DIX—Will you please do us girls a favor? I am sure there are plenty in the same boat with me, wishing someone would give our boy friend a jolt. I have been going with "him" ever since high school days. Have passed up wonderful chances on boy friends for him just because he was IT to me. His actions and eyes show he cares for me, but just because he has a number of years yet before he will be finished college he has never told me he loves me or mentioned the future. Don't you think that even if a young man has five or six more years of schooling ahead of him that he could give a girl a sort of an inkling of his intentions by saying out loud that some day she can share his degree that he is striving for? Will you tell our boys in school to let us know that we aren't only sweethearts during student days, but that we will be after graduation? It would make the years go by so much faster. We don't want a formal engagement, just an assurance and not be left guessing.

YVONNE.

Answer—There you are, boys, and now you know how the girls feel about it. They don't like this repression stuff. The strong, silent man who keeps his feelings locked in his own heart because he is not in a position to escort the girl to the altar, doesn't make any hit with them. They don't admire his nobility. They feel like choking the words out of his mouth and shaking him until he speaks what they feel is just trembling on his tongue. If men love them, they want to be told about it in good, unmistakable language and to have it repeated to them often and loud.

You see when a girl loves a boy it hurts her vanity for him to keep mum about his sentiments toward her. It humiliates her because it makes her feel that she has given her heart unasked, and that perhaps the man doesn't even want the gift she has bestowed upon him.

Of course, she may think she sees the love light burning in his eyes, but she can't be sure that she has read the signals right until he unmistakably marks them "go" or "stop." She may think that his actions indicate his preference for her, but again she can't be certain because again many a man hangs around a girl's house because he likes her mother's cooking and takes her out because she is good company without ever entertaining for her more than a mild liking or having any intentions beyond having a good time.

So, naturally, a girl wants a boy to file a declaration of his intentions by coming out flatfooted and stating them. She wants him to justify her affection by telling of his own. She wants to be fed on flatteries and cajoleries and, above all, she wants to know what she has to look forward to in the future and whether there is any use in wasting any more time on him or not.

So the girl is quite right in expecting the boy who is in love with her and who knows that she is in love with him—for when a girl in love with a boy can no more hide it than she can the shape of her head or the color of her eyes—to tell her all about it. To deny her that is like refusing to give a child a stick of candy that it is begging for, and I am of the opinion that if the boy is really in love he does it. For when two young hearts are aflame with passion there is a case of spontaneous combustion when they come in contact, and not many youths are heroic enough to smother out the fire of words under the wet blanket of silence.

I strongly suspect that the boys who never tell their love to their childhood sweethearts when they are starting off on a long college course, are those who are wise enough to analyze their own emotions and realize that all they feel is a little bit of love that will soon flicker out. They know that in five or six years they will change from boys into men; that in a different environment, meeting different people; studying, learning, their whole outlook on life will be altered and that they will acquire new ideas, new standards, form different tastes and habits and that it will be almost a miracle if they are still in love with the same girl that they were in love with in their salad days.

And these boys are wise enough and honorable enough not to want to bind a girl to them whom they may not want to marry when they are ready to marry. They do not feel obliged to marry a girl whom they may have possibly outgrown or of whom they may just have tired. Nor do they want to feel that they have kept her from making some advantageous marriage and settling herself in the world.

So I think, Yvonne, that the boy who does not tell you of his love knows in his own heart that he has no affection for you that will last, and he is trying to save both of you from getting into a sentimental situation out of which neither of you could extricate yourselves without somebody getting hurt. And that somebody would be you.

Better let him go; get a boy friend who can say it with an engagement ring.

DOROTHY DIX.

DEAR MISS DIX—Don't you think brothers should treat their sisters as if they were human beings? Brothers seem to be different people when they are around their girls. They are smiling and chatty and help them into cars and over curbs, while they never have a word to say to their sisters and they can climb over a wheel the best way they can. Of course, I don't expect my brother to treat me as though I were his best girl, but I would like him to talk to me once in a while and take me out occasionally and I think he might introduce his friends to me and when he goes out get a date for me.

A BEWILDERED SISTER.

Answer—It has been said that no brother can ever imagine what any other man ever sees in his sister to make him fall in love with her, but I don't think the disillusion of brothers is quite as bad as that. I think most brothers are very fond of their sisters, only they don't feel that they have to go to any trouble to make things pleasant for them.

Of course, a brother can do a lot for a sister if he wants to. He can bring nice boys to the house and give her a chance to get acquainted with them. And he can take her to places and give her a good time. Above all, he can give her a lot of hints about how to make herself popular with boys and he can be the best chaperon in the world because they are in the same crowd and he knows what the young ones do and he is always Johnny on the spot.

But from the boys' side of the question it must be admitted that they frequently don't get much encouragement from their sisters. The girls think brother is trying to boss them if he tells them not to go with certain boys or to certain places and they resent his criticism of the way they dress and the amount of rouge and lipstick they use and so brothers say, "Oh, what's the use?" and leave sister to paddle her own canoe.

The relationship between brothers and sisters can be one of the most beautiful and comforting ones in life, and it is a pity that so many men and women miss it.

DOROTHY DIX.

DEAR MISS DIX—I am a boy of nineteen very much in love with a girl of sixteen. Can a girl of sixteen know the meaning of saving? Most girls want to see how much a boy can spend on them, but this one is different. Can she really mean it?

OLENN.

Answer—Most girls of sixteen belong to the Gimme family. They think of nothing but having a good time and grabbing everything in sight, so if you have found one who considers your pocketbook you have discovered a marvel. But she is too young to marry or for you to be certain what she is going to develop into. Give her five or six years more in which to develop and grow, then you can be certain whether you are getting a spender or a saver.

Horoscope

FRIDAY, SEPTEMBER 2, 1932

Benefic aspects rule today, according to astrology. It is a time to push work that involves construction on a big scale. The early morning should be beneficial to industry. Employment of many hands appears to be indicated.

Land owners should benefit under this way, which promises rising values and higher taxes in the near future. Teachers are subject to a planetary government that seems to favor changes in educational methods and temporary disturbances of established usage, but the stars promise a direction of this should be an auspicious direction of the stars for oil producers and for who deal in liquid commodities. Drug stores should profit.

While this rule prevails the mind should be clear and the mental vision trustworthy. It is a time to make plans and to outline policies for the coming winter. Much ocean travel is prognosticated. Not only will many summer tourists return, but autumn travel abroad will lure great numbers. It is predicted. Children born on this day probably will be studious and exceedingly intelligent. Subjects of this sign are fearless in pre-

fecting their opinions and may show many enemies. There is a sign read as foreboding increase of influence for organizations that have to do with labor and farming. The opposition of Venus and Saturn is interpreted as threatening a sorrow to the rich nation.

Children should be protected against the spread of epidemics this fall. When contagious diseases are prevalent. Persons whose birthdate is 11 have the danger of a year of fair financial prospects. Gain through the influence of friends or relatives is foretold. Those who have celebrated it as a birthday include Henry George, 1829, political economist; Eugene Field, 1850, poet and humorist; and Hiram W. Johnson, 1866, senator.

THROW AWAY SMALL ONIONS

Parma, Idaho, Sept. 1.—Canyon County onion growers have voted almost unanimously to throw away Spanish onions smaller than 2½ inches in diameter in order to improve the price of their larger ones. Provided the rest of the state will agree on similar action, R. H. Young, leader in the movement, announced today. It was estimated the action would eliminate 20 per cent of the Idaho crop.

JAMES WILSON OF OTTAWA DIES

Canadian Press
Ottawa, Sept. 1.—James Wilson, seventy-seven, noted Canadian art dealer, and head of James Wilson & Company, Ottawa, was found dead in bed in his hotel room at Pickenock, Que., yesterday. He had died in his sleep.

As a connoisseur of art, Mr. Wilson was known throughout Canada, and for a helping hand and sympathetic advice. Also an amateur photographer of renown, Mr. Wilson took great interest in camera work. Something of an artist himself, many of his paintings are parts of private collections in Ottawa.

KRESGE BLDG. 1109 DOUGLAS ST.Eczema Goes
In Seven Days
Or Money Back

Thousands of people who suffer from itching skin, eczema and unsightly eruptions will be glad to know that Moore's Emerald Oil, a clean, powerful, penetrating antiseptic oil, will banish their trouble in seven days or less.

For years they have been using ointments and salves, and while they helped to relieve the itching, soreness and pain they often choked the pores and did not allow the poisonous matter to escape.

Moore's Emerald Oil (full strength) overcomes this objection, for this oil penetrates down through the pores and leaves them free to discharge all poisonous secretions. It is highly concentrated, and only a few drops are required at an application. You can get it at any progressive drugist's and if it doesn't end your trouble in seven days—money gladly returned—directions on each bottle. (Adv.)

ROOSEVELT TRIP
TO VICTORIA OFF

Governor-General of Philippines Not Coming to Victoria as Announced

Theodore Roosevelt, Governor-General of the Philippines, who expected to be a visitor here aboard the liner President Madison October 3, has cancelled his trip, according to a news dispatch received from Manila this morning.

The message follows: Manila, Sept. 1.—Advised by a cablegram from Secretary of War Patrick J. Hurley that President Roosevelt has concluded it best that he not leave his duties, Governor-General Roosevelt yesterday cancelled his proposed trip to the United States to participate in the Republican presidential campaign. Governor Roosevelt, who planned to sail September 14, is known to have brought pressure to bear on Republican chieftains against the trip because of important legislation pending in the insular Legislature. That body is now formulating measures to balance the budget and reorganize the government.

TO START NEW
EUROPE ROUTE

Ms. Samuel Bakke and Ms. John Bakke Will Link Pacific Northwest With London

Seattle, Sept. 1.—W. L. Comyn of the shipping firm of W. L. Comyn and Sons of Seattle, yesterday announced establishment of a Seattle-owned shipping line between the Pacific Coast range of ports and London. Liverpool, Rotterdam and Antwerp. The new link between the Pacific Northwest and Europe will be known as the Cascade Line. The motorship Samuel Bakke will arrive here October 7 to inaugurate the monthly service. She will be followed in November by the motorship John Bakke. The vessels will carry general cargo, passengers and fruit. Comyn, who held the contract to carry 15,000,000 bushels of farm board wheat and flour for the Chinese famine relief commission, said conference rates will be maintained. "So far as the fresh fruit movement is concerned," he said, "we will maintain adequate service during the shipping season."

100,000 PEOPLE
GO ON CRUISES

London, Sept. 1.—The extraordinary popularity of the "cruising industry" is a subject of considerable constant here. The Evening News estimates that 100,000 persons have put to sea from Britain since spring on special cruises in 500,000 tons of British shipping. "When, in years to come, we look back upon these eventful days, the sudden rise of the cruising industry in 1932 will seem one of the most remarkable social phenomena of the age," says The Evening News. "It will be proof of the solidarity of the British race of the unshattering acceptance by the whole people of changed ways of life."

RETIRE OFFICERS AND
MERGE C.N. POSITIONS

Montreal, Sept. 1.—Amalgamation of operating divisions, retirement of the three officers and change in the assignments of several superintendents are included in economies announced by the Canadian National Railways. The changes become effective at once. An official statement issued to-day said: "The officers retiring are G. P. Clarke, superintendent of car service at Toronto, who has completed forty-four years' service; A. P. Stewart, regional chief engineer at Moncton, N.B., who retires after lengthy railroad service, twenty-five years of which have been with Canadian National and predecessor lines; and W. N. Rippey, who retires as superintendent at Moncton after half a century of service. "Amalgamation of the Montreal and Saguenay operating divisions under P. L. C. Bond, general superintendent."

GREAT SPEED

Jimmy Doolittle

Cleveland, Sept. 1.—Major James H. Doolittle flew his stubby barrel-shaped long winged racing ship 292.462 miles an hour over a three-kilometre course at the National Air Races here to-day. Although Doolittle streaked along faster than any land plane officially has traveled, his speed was far slower than the speed record for aircraft of any type. That record of 406.397 miles an hour was set by Lieut. G. H. Stainforth at Lee-on-Solent, England, on September 29, 1931, and is officially recognized as the maximum speed ever made.

WILL RETIRE

Vancouver, Sept. 1.—Completing twenty-eight years' service in the customs and excise department of national revenue, Harry White, special inspector of customs and excise for British Columbia, with headquarters in Vancouver, retired to-day.

Around
the
Docks

Coming in from San Diego, Los Angeles and San Francisco, the Pacific Steamship Company's liner Ruth Alexander will reach Rithet Piers in the morning at 1 o'clock, according to a wireless message received here this morning by W. M. Allan from Capt. Frank Landstrom, master of the liner. There are fifty passengers aboard for Victoria. They will remain aboard until 6 o'clock in the morning when disembarkation will commence. The ship will proceed to Seattle at 7 o'clock.

HAS RAW SILK

There are 4,952 bales of raw silk aboard the inbound American Mail liner President Taft, due here from the Orient next Tuesday morning on her way to Seattle. The silk will go on to Seattle and will be sent east from that port in fifteen special railway cars. The Taft will spend several hours here on her way in from sea.

TO WEST COAST

With a good list of passengers, including several round-trip tourists, the C.P.R. steamer Princess Norah will sail from the Belleville Street docks tonight at midnight for a trip to the west coast of Vancouver Island. The Norah will also sail to the Coast on September 11 and 21. In October the Princess Macquinn will go on the run for the winter months.

FROM ORIENT

Bound across the north Pacific for Victoria the N.Y.K. liner Yokohama Maru is due here next Wednesday. For this port she has two tourist class and two third-class passengers and 100 tons of general cargo. Passengers for Seattle include nine tourist class and eight third-class passengers. In the Seattle is a parcel of 2,500 bales of raw silk.

DUE IN MORNING

Inbound from the Orient and Honolulu the Canadian Pacific liner will be alongside the Rithet Piers about 7:30 o'clock in the morning. She is due at William Head at 6 o'clock. She will remain here until about 9:30 o'clock before proceeding to Vancouver. There are 300 passengers aboard, several of whom will disembark at this port.

SAILS FOR HERE

With cargo for discharge at Victoria, the Kingsley Navigation Company's freighter Texada sailed from San Francisco yesterday afternoon. She will arrive here Sunday evening or Monday morning.

OUT SATURDAY

On her way to ports in Japan, China and the Philippines Islands, the liner President Cleveland will sail from here Saturday evening at 6 o'clock. She will spend two hours here in the late afternoon on her way to sea from Seattle. There will be a good list of passengers aboard.
